

Fraction Poster Checklist

	Check when complete
We have represented the fraction problem accurately with no mathematical errors.	
We have included a visual model to help explain the fraction problem.	
We have step-by-step instructions on how to solve the problem.	
We have included a common mistake students make when solving the fraction problem and explained why it is incorrect.	
We have used correct mathematical terminology and notation.	
We have a conclusion describing why knowing how to solve this fraction problem is important.	
Our poster is visually appealing (appropriate spacing and balance, use of color, title, easy to read).	
We have asked another group for feedback on our draft and used the suggestions to improve our poster. Suggestions:	Group members:
